Re: Letter of recommendation for Grid co Construction

To whom it may concern

We hereby confirm that we are currently contracting on a commercial project with Grid co construction and have to date found that their service is both professional and efficient.

Their highly experienced team has brought added value to our project in terms of construction detailing and expert construction advice and implementation.

They are delivering the product on time and to specification with special attention to planning, programming and quality control.

They have worked well with the professional team to ensure good information flows to site and maintained delivery dates.

We would highly recommend their services to the industry and look forward to further working relations with them on other projects.

Yours sincerely

Jacques van Niekerk
(Principal)
